After floging med at the republican party and General Gerfield, he went into costacies of joy over what he ermed a glarious victory in Maine, and said that now the party should I nd their efforts for the republic. He Two it as his opinion that the democrats were in part due the credit of the late victory. After the appointment of two

at the August meeting. Solon Chase moved to amend the resolution so that the convention neminate a solid greenback ticket, and said the convention must either adopt the fusion resolution or go it adopt the fusion resolution or go it alone. He bitterly opposed a fusion, He was c nildent that no other state in the Union would work with the cojection already offered to the \$17.80@17.90 for October; \$12.50@ He says that Jones, greenbacker, is greenbackers, as the democrats could not stand on their platform. One delegate urged Mr. Chase and handful of fellowers to consider ctore they bolted. The f lowing resolution was offered, ut was finel y laid on the table: Resolved. That it is not the province of this par y to declars in advance the policy of the party, and, in Congressman Ladd spoke, in effect that it was necessary to set aside every other consideration with the single a m of helping to defeat the

The democrats are highly elated over the combination.

At the close of the greenback convention, the bolters headed by their leaders adjourned to the City Hall, where they finally concluded to support the electoral ticket of Chase and Corner, who are on the fusion ticket. The following circular is printed in to day's paper. "In explanation of the position by the greenback party, nd for the instruct on and encourg ment of our brethren in other states the straight greenbackers would say that there is a greenback par y in this state of Maine, devoted to the interests of the whole people, and that the last fueion, and confusion that has prevailed in this state. was of local exigencies and issues, and had nothing to do with nat onal matters; that we shall vove with our
